Transportation to Venues: As noted on the Schedule above, we will be using Uber (Ride Share) for the group's transportation needs around Memphis. We used this at our New Orleans Reunion, it is quick, inexpensive and works great. Use of Uber requires one rider in the car to have a smart phone to order and pay for the ride (whole car is one price based on distance, so double up). To use Uber, users have to have the Uber App installed on their smart phone. Once downloaded and installed, the user will need to set up a simple Uber account using the credit card of the user's choice. No cash is necessary to ride and no money transfers hands except for a tip if desired. The charge goes right on your CC. However, the App also provides a driver tip capability if desired. Zeke will be happy to help you set up your new account at the hotel if necessary. **IT IS REQUESTED THAT EVERYONE WITH A SMART PHONE PLEASE HAVE AN ACTIVE UBER ACCOUNT** so that the cost of our transportation is spread evenly throughout the group. If you do not have a smart phone, buddy up with someone who does, travel with them and do some cash reimbursing for your part. *Thanks! -- Zeke*
